

# *Virginia State Government Agency Abbreviations*

In the past, formal Agency Abbreviation reports were posted to the DPB Website. These reports were static in nature and were produced once a year, even when new agencies were created along the way.

With the implementation of the PB system, Chart of Accounts reports are now available on the DPB Website, including an Agency Report, COA2.0, that lists the Agency Abbreviations along with other agency level information. The reports are created in real-time from the live production tables of the PB system.

***For a listing of current Agency Abbreviation , please reference DPB's Website for Chart of Accounts listings at:***
